Rules of play

1. Click on the Play button to start one of 16 plays.
2. If a lucky symbol plus a multiplier (x1, x2, x3) is drawn in a play, the number on the multiplier is added in as points at the relevant place in the matrix. If at least 5 points are collected for a lucky symbol, the relevant field in the matrix is considered to be completed.

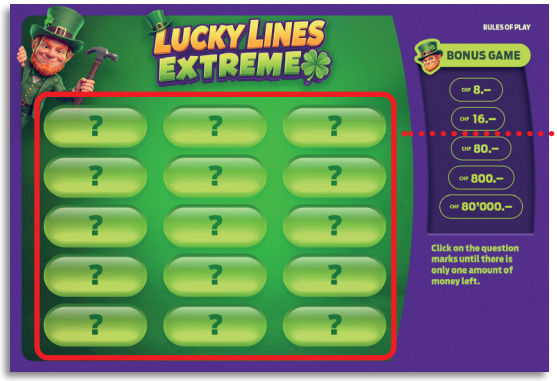
Bonus Game



Rules of play

3. If a lucky symbol plus the leprechaun symbol is drawn in a play, the relevant field in the matrix is considered to be lost, even if it was already completed in previous plays. The cash amounts in the relevant columns, rows and diagonals can then no longer be won.

4. If the leprechaun symbol is drawn three times in a play, the bonus play starts automatically. You can then eliminate the hidden cash amounts one after the other by clicking on the question mark on top. Each click then automatically eliminates all other identical hidden cash amounts. The last cash amount remaining is your prize.

5. If, at the end of a play, all three fields in a row, column or diagonal are completed, you win the relevant cash amount.

6. If a cash amount plus a multiplier is drawn in a play, the product comprising the cash amount and the multiplier is the prize (e.g. CHF 6 plus a multiplier of x2 gives a prize of CHF 12).

Multiple wins are possible!
